

- 
- ✘ Would you like to work in a dynamic and development-oriented team?
 - ✘ Are you familiar with IFRS and Solvency II?
 - ✘ Do you like creating and implementing new models and reports?

Then, come and join UNIQA Biztosító as a Senior Life Modelling Actuary

You will be responsible for the following tasks:

- Participating in Solvency II closing and reporting process
- Taking part in IFRS17 modelling
- Developing new and enhancing existing models in Prophet
- Designing and implementing new functionalities in our life models and Excel tools
- Working on the regional model and on the Business Unit's own models
- Support in model reviews, platform conversions, IFRS17 implementation

We are looking for you if you have

- At least 4 years working experience within a company in the field of insurance/consultant services or audit (preferable in life) actuarial function; modelling experience is strongly preferred
- University degree in Actuarial Sciences, Econometrics, Financial Mathematics or related discipline
- Experience with cash flow models (preferably in Prophet/AFM/Moses)
- Fluency in English (oral and written) is must
- Analytical, solution- and business-oriented mindset
- SAS knowledge is an advantage

What's our offer?

- Excellent opportunity to work for a stable, multinational company, where you can work in a creative and cooperative team
- Actuary team plays a decisive role in our value-driven world
- We want to increase sustainable relevance and impact in people's lives

Sounds like a good opportunity?
